

Mullite Fiber Paper

Description

REF – MFPaper is a lightweight refractory material asbestos free suitable to withstand temperatures of up to 2912°F. It is an ideal materials for gasket and sealing in high temperature zone.

Classifications

REF – MFPaper 2912

Features

Low thermal conductivity
Low heat storage
Lightweight
Excellent thermal shock resistance
Asbestos free

Applications

High temperature gasket
Auto muffler
Hot top lining
Thermal and electrical insulation

Specifications

1/16" x 24" x 100'

1/8" x 24" x 65'

1/4" x 24" x 33'

Other specification is available according to customer's requirement.

Classification	MFPaper 2912
Classification Temp(°F)	2912
Continuous Use Temp(°F)	2732
Color	White
Density(lbs/ft ³)	12.5
Organic Content(%)	≤8
